History Alert

'History Alert' allows you to set up transaction-related alerts for your account(s)

The screenshot shows the Midland mobile banking app interface. At the top, the Midland logo is on the left, and the greeting "Good Morning, Customer" is on the right. Below the header is a navigation bar with links: Home, Transfers & Payments, Business Banking, Services, Settings, Messages, and Log Off. The main content area is titled "Alerts" and features a "+ New Alert" button. A dropdown menu is open, showing four options: "Account Alert", "History Alert" (highlighted with a red border), "Non-Online Transaction Alert", and "Online Transaction Alert". Below the dropdown, there are three sections: "Account Alerts (1)", "Online Transaction Alerts (1)", and "Security Alerts (20)". The "Security Alerts (20)" section has a downward arrow icon.

Non-Online Transaction Alert

'Non-Online Transaction Alert' allows you to set up incoming and outgoing wire transaction alerts for your account(s)

The screenshot shows the Midland banking portal interface. At the top left is the Midland logo, and at the top right is the greeting "Good Morning, Customer". Below the header is a navigation bar with links: Home, Transfers & Payments, Business Banking, Services, Settings, Messages, and Log Off. The main content area is titled "Alerts" and features a "+ New Alert" button. A dropdown menu is open, showing four options: "Account Alert", "History Alert", "Non-Online Transaction Alert" (which is highlighted with a red border), and "Online Transaction Alert". Below the dropdown, the "Alerts" section is divided into four categories: "Account Alerts (1)", "Online Transaction Alerts (1)", and "Security Alerts (20)". The "Security Alerts (20)" category has a downward arrow icon next to it.

Midland 

FDIC FDIC-Insured - Backed by the full faith and credit of the U.S. Government

Good Afternoon, Customer

Create and manage alerts for your accounts. Enable/disable security alerts for account activity and edit delivery preferences for receiving alerts. Alerts are not in real time, there may be a delay between when transactions occur and when you receive an alert. ×
